

JAFFNA JAIPUR CENTRE FOR DISABILITY REHABILITATION (JJCDR)

ANNUAL REPORT 2025

1. Message from the Chairperson

Dear Members, Partners, Donors, Beneficiaries, and Friends,

It is my pleasure to present the Annual Report of the Jaffna Jaipur Centre for Disability Rehabilitation (JJCDR) for the year ended on 31 December 2025.

During the year, JJCDR continued its commitment to improving the quality of life of persons with disabilities by providing prosthetic and orthotic services, rehabilitation support, mobility assistance, and community-based interventions. Despite various operational and economic challenges, the organization remained focused on ensuring that persons with disabilities received timely and quality services.

We are grateful to our donors, partners, volunteers, staff members, and Board of Management for their dedication and support throughout the year. Their collective efforts enabled JJCDR to continue serving vulnerable communities and strengthening disability-inclusive development.

On behalf of the Board of Management, I extend our sincere appreciation to all those who contributed to our achievements during 2025.

Chairperson

Mrs.Kosalai Mathan
JJCDR

JJCDR continued to provide artificial limbs and orthotic devices to persons with physical disabilities.

During the year:

- Number of prosthetic limbs fitted: 136
- Number of orthotic devices provided 203
- Number of repairs and adjustments completed: 1027
- Number consultations conducted : 43

These services significantly improved mobility, independence, and quality of life for beneficiaries.

Distribution of Assistive Devices

JJCDR provided various assistive devices to support independent living.

Devices distributed:

- Wheelchairs: 07
- Crutches: 06
- Walking aids: 0
- Other assistive devices: 01
- Tricycles - 75 for Northern and Eastern Provinces of Sri Lanka

6. Special Projects and Partnerships

During 2025, JJCDR collaborated with local and international partners to strengthen disability rehabilitation services and improve the quality of life of persons with disabilities and other vulnerable groups.

A significant milestone during the year was the introduction of the **Diabetic Footwear Programme** in February 2025. The programme was established to address the growing need for preventive foot care among individuals living with diabetes. Through this initiative, JJCDR commenced the assessment, design, manufacture, and provision of customized diabetic footwear aimed at preventing foot ulcers, reducing the risk of lower-limb amputations, and promoting mobility and independence among beneficiaries.

The programme complements JJCDR's existing rehabilitation services and reflects the organization's commitment to expanding its range of assistive and preventive healthcare solutions. The implementation and growth of this initiative have been made possible through the valuable support provided by Christian Medical College (CMC), Vellore, India. In addition, partnerships with healthcare professionals, hospitals, donors, and other stakeholders have played a significant role in strengthening the programme and enhancing its impact on beneficiaries.

Throughout the year, JJCDR continued to work closely with local and international partners to enhance service delivery, build technical capacity, and increase access to rehabilitation services for those in need.

Key Partners

- Government institutions -Ministry of Health, Government & Local hospitals, and Rehabilitation centers
- Government Supporters – Department of Social Services, Divisional Secretaries
- International Medical Health Organization – UK
- International Medical Health Organization – USA
- Manitha Neyam Trust - UK
- Let Us Help Now _ Canada
- Australian Medical Aid Foundation (AMAF)
- Academic institutions such as the University of Jaffna (where applicable)

Dr. Thayalan Ambalavanar continued to support JJCDR by conducting a weekly clinic at the Centre. In addition, he mobilized financial contributions through his professional network to support JJCDR's rehabilitation services and organizational activities.

7. Capacity Building and Staff Development

To maintain high standards of service delivery, staff members participated in various training programmes and workshops.

Topics included:

- Prosthetic and orthotic technology

Number of staff trained: 03

Number of training programmes attended: 02

9. Challenges Faced

During 2025, JJCDR encountered several challenges, including:

- Rising operational /staff costs
- Increased demand for rehabilitation services
- Limited funding resources
- Procurement and supply chain delays
- Transportation and logistics challenges

Despite these difficulties, the organization continued to deliver services efficiently through the dedication of staff and support from partners.
